Tips for WGS Success

Arrange a trio for paediatric cases to help
actionable results.

Store the patient sample correctly (eg
blood samples in purple top EDTA).

Complete all forms electronically.
Handwritten will be rejected.

Include the patient's ethnicity to improve
accuracy of results.

Explain why the patient meets National
Genomic Test Directory eligibility criteria
& include ALL HPO terms (Human
Phenotype Ontology).

Email the Record of Discussion & Test
Order Form to gstt.wgs@nhs.net

Look out for an email from the WGS
team. We'll email you if there is a
problem.
